Our Mission is **LIFE**

Infirmiry Foundation is a qualified 501(c)(3) charitable organization whose role is to secure, receive and administer philanthropic resources on behalf of and to benefit Mobile Infirmiry and Infirmiry Health System. The Foundation seeks to inspire the community to engage in charitable investment to preserve the Mobile Infirmiry's tradition of caring, to fuel innovation and medical excellence, and to make possible facilities, programs and services to better serve our patient's healthcare needs.

Our mission is LIFE. We accomplish our mission through executing our values of leadership, integrity, family and excellent service every day working in partnership with hospital leaders and supporting the medical professionals who treat our patients. We work closely with community partners and our donors to ensure Mobile Infirmiry is the FIRST CHOICE in healthcare in the region.

Infirmiry Foundation is governed by its Board of Directors which is comprised of committed volunteers from across the community who understand the importance of building a strong healthcare system in our region.

The Foundation in Focus

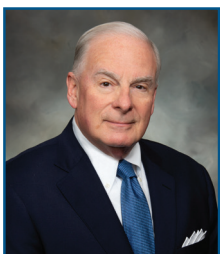

Infirmiry Foundation has garnered incredible support during its first forty years from appreciative friends, grateful patients and their families and members of our Board of Directors. Our donors have given generously to help meet the needs of Mobile Infirmiry Medical Center demonstrating the trusting relationship we have built as your community hospital.

The Foundation has grown from less than two million dollars in 1984 to over 40 million dollars in assets today. Over the last four decades, Infirmiry Foundation has invested in excess of forty million dollars back into Mobile Infirmiry and Infirmiry Health. Projects include purchasing essential equipment, brick and mortar improvements, continuous support of staff education and community programs and partnerships that improve the health of residents in South Alabama.

One program that we are especially proud of is the Robotics Program at Mobile Infirmiry. The Foundation is responsible for the purchase of all six da Vinci® robots over the last 15 years. These investments have allowed Mobile Infirmiry to become the largest surgical program in the region by volume. This achievement is important for our patients who can receive less invasive procedures because of this cutting-edge technology. We also support an increasing number of robotics trained surgeons in multiple disciplines. Today, we have over 35 surgeons using our robots and the number of robotic procedures grows each year.

We have programs that are designed to support our Infirmiry family as well. Our employee assistance program assists employees during times of need, and we offer tuition reimbursement to ensure our staff are the most qualified in their field. We collaborate with community initiatives that serve young people, disabled constituencies, and patients of all ages through our community screenings, wellness centers and education.

While proud of all we have been able to do, we recognize the next 40 years will bring new challenges and a need for Infirmiry Foundation to provide new resources. Please continue being an advocate for Mobile Infirmiry and Infirmiry Health. We appreciate all of our donor's support, especially those who commit annually to support our mission, LIFE. Your gifts make it possible to bring the best in healthcare to our community. I invite everyone to join a giving society or become a sustainer to strengthen Infirmiry Health for the next 40 years and beyond.

TRANSFORM

Internal Medicine Residency Program

In 2023, Mobile Infirmary received final approval by the Accreditation Council for Graduate Medical Education (ACGME) to establish an internal medicine physician residency program beginning in July 2024. Internal medicine physicians are specialists who apply scientific knowledge and clinical expertise to the diagnosis, treatment and compassionate care of adults across the spectrum of health. The physician residents will rotate through Infirmary Health's diverse medical service offerings including inpatient care, emergency services, outpatient medical clinics and a continuity clinic staffed by the resident physicians and board-certified physician faculty.

"We are excited to welcome a residency program to Mobile Infirmary," shares Susan Boudreau, president of Mobile Infirmary. "While our hospital has been fortunate to train and develop new physicians for many years, this new program fulfills our long-term vision of doing so through Mobile Infirmary directly. This will allow us to recruit and retain more physicians to our region and care for all communities in south Alabama."

Today, the State of Alabama's healthcare system is challenged by a number of significant issues including having one of the lowest private and governmental reimbursement rates in the country. This distinction contributes to the growing physician shortage that exists across Alabama. The COVID-19 pandemic exacerbated the physician shortage particularly in underserved rural areas of the state. Recent studies suggest that Alabama needs more than 300 primary care physicians to remove its designation as a Health Professionals Shortage Area (HPSA). In fact, all 67 counties in Alabama, either completely or partially, are designated as HPSAs.

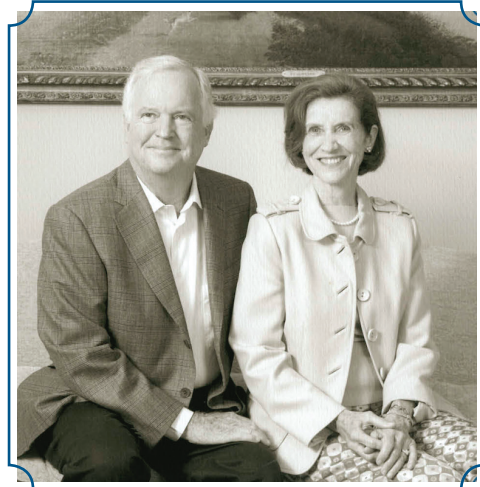

In order to make this program a reality, the Infirmary Foundation secured needed resources to fund several capital projects that were required for the hospital to earn its accreditation through special events, grant writing and gracious giving from our community. These facility improvements included construction and remodeling of a continuity clinic, sleep quarters for residents in the hospital and meeting spaces for educational sessions. Infirmary Foundation is extremely grateful for all the support received from our community to make this project a reality.

INSPIRE

Gracious giving

As a community hospital, Mobile Infirmiry relies on its supporters to help implement major projects that advance healthcare delivery for our patients. In 2023, The O'Melia Foundation stepped forward to make a significant contribution to the Internal Medicine Residency program. The O'Melia Foundation committed \$1 million in support over five years to ensure the program could move forward and meet the implementation deadlines. This gift gave Infirmiry Foundation the resources needed to fund the construction of a new continuity clinic at 1720 Springhill Ave. This clinic allows residents to treat their patients post-discharge and offer medical care to those in the community who are currently not being treated by a physician. We are grateful to the O'Melia family and all the donors who have helped Infirmiry Foundation provide financial resources to this important project. The Residency Program will improve access to quality healthcare to the citizens of Mobile and help strengthen our healthcare system.

Thomas & Mary Appleton O'Melia

With a generous gift from the O'Melia Foundation, Mobile Infirmiry will have the capability to train a new generation of physicians and enhance the excellent care we provide to our comminty.

Infirmiry Foundation would also like to thank the following organizations for their contributions to the Internal Medicine Residency Program during the last year. We are grateful to these organizations for their ongoing commitment to Mobile Infirmiry.

A.S. Mitchell Foundation

Band of Poarch Creek Indians

Belle G. Roberts Charitable Trust

E.A. Roberts Charitable Trust

J.L. Bedsole Foundation

The Crampton Trust

MEDICAL EXCELLENCE

3D Mammography is the Standard of Care at the Breast Center at Mobile Infirmiry

According to the American Cancer Society, about one in eight women develop breast cancer, and about one in 36 women will die from breast cancer. In 2022, The Breast Center at Mobile Infirmiry planned to renovate its current facility to better serve its patients and add new technology to better detect, diagnose and treat breast cancer. The project would provide more space to accommodate additional 3D mammography units.

Infirmiry Foundation launched its Think Pink campaign in October 2022. Proceeds from the annual Golf Tournament went to the campaign and grants for funding were submitted to local and regional foundations. In March of 2023, the campaign concluded with the first Celebrate Life Luncheon, which raises money for women's health initiatives at Mobile Infirmiry. The ribbon cutting for the renovated Breast Center took place in June 2023. We are grateful to our community for supporting this campaign so that we can have the best technologies to serve our patients.

Mobile Infirmiry's Robotics Program Grows Again Adding its 6th Robot.

Mobile Infirmiry was the first hospital in the region to acquire the da Vinci[®] Surgical system, a state-of-the-art robotic platform used to perform precise and minimally invasive surgeries. Over the last 15 years, the Infirmiry Foundation has invested over \$8 million in the program, and as a result, the program has grown to include over 35 surgeons in six surgical disciplines.

In 2023, Infirmiry Foundation's Celebration Under the Oaks supported the addition of the hospital's 6th robot to meet the growing demand for these procedures. The use of robotics allows for less invasive treatments with less risk for patients.

The Foundation is proud to play a vital role in bringing this program to the community and look forward to its continued success.

COLLABORATE

Partnering to improve patient care

Infirmiry Cancer Care and UAB O'Neal Cancer Center's affiliation allows patients to receive cancer treatment close to home.

This collaboration aims to decrease the burden of cancer, improve outcomes, and expand cancer scientific discovery by leveraging the expertise and resources of both organizations. Patients will continue to receive care at Infirmiry Cancer Care's locations in Mobile and Baldwin Counties, while also gaining access to UAB's cancer experts and multidisciplinary teams, including expanded treatment options and clinical trials.

Infirmiry Foundation works closely with the cancer program to identify needs and secure funding to assist with future expansion of the program's services.

Cancer Education and Resource Fairs help improve Infirmiry Cancer Care Quality Programs and provides access to educational opportunities for program staff.

The bi-annual events are hosted by Infirmiry Foundation for physicians from Medical Oncology, Radiation Oncology, Surgical Specialties, Internal Medicine, Advanced Practice Providers, Pharmacy, and Nursing. Participants are educated about cutting edge therapies, new products and changes and updates in an interactive environment. The educational events elevate the level of cancer care and treatment options in south Alabama.

Mobile Infirmiry and Telagen's partnership has provided 950 placenta donations to help patients in need.

TelaGen donation services are available at Mobile Infirmiry, and its program provides patients in need the ability to receive donated tissues to aid in their healing journey. In 2023, Mobile Infirmiry was recognized for having made 950 placenta donations from its patients.

Human amniotic membrane, inner part of the placentas, has been used in medicine for over 100 years and is now also used to treat difficult-to-heal wounds and soft tissue injuries. When used in surgery, amniotic membrane can be used as a natural biological membrane at the surgical site which aids in reducing inflammation and scarring. There are many treatment areas that can benefit from this program including eye therapy, difficult to heal wound therapy, dental therapy and spine therapy.

IMPACT

Community Engagement

Commemorative bricks make an ideal gift and are a wonderful way to honor accomplishments and milestones in the lives of friends and family. Pavers are tax-deductible and are available for purchase year-round. For more information, contact the Infirmiry Foundation at 251-435-4447 or at foundationevents@infirmiryhealth.org.

In early 2024, we had our first installation in the Rotary Courtyard at Mobile Infirmiry.

Special Events

Each year, Infirmiry Foundation hosts a variety of events to bring supporters together to raise funds for various projects. The community can show its support by becoming a sponsor or buying a ticket. For more information, contact the Infirmiry Foundation at 251-435-4447 or at foundationevents@infirmiryhealth.org.

2023-24

Financial Overview

FISCAL YEAR FINANCIAL REPORTING

DONOR STATS	FY 2023	FY 2024
Donor Count	1,643	2,214
Total Gifts	25,761	30,901
Total Giving	\$1,898,824	\$2,685,148

GIVING SOCIETY & MEMBERSHIPS

Giving Societies have been formed to establish a meaningful way for individuals to invest in Mobile Infirmery and the Infirmery Foundation and help to achieve our mission, LIFE.

Annual giving can be made in one gift or multiple gifts throughout the year. The Giving Society level is assigned based on the total amount of gifts received during the calendar year. A gift received after December 31, but postmarked prior to that date will be credited to the year it was postmarked. Gifts will be directed to the General Fund at Mobile Infirmery or Infirmery Foundation unless otherwise noted at the time the gift is received.

OAK HILL SOCIETY

Oak Hill Society membership is reserved for individuals that donate \$1,000+ annually to the Infirmery Foundation. Membership can be achieved with a recurring gift of \$84 per month.

LEADERSHIP GIVING CIRCLE

Leadership Giving Circle recognizes individuals that donate \$1,500+ annually to the Infirmery Foundation. Membership can be established with a recurring gift of \$125 per month.

BENEFACTOR OF THE FOUNDATION

A Benefactor is an individual who chooses to make a major gift of \$5,000+ annually to the Infirmery Foundation in support of major initiatives at the Mobile Infirmery.

“\$40 FOR 40 YEARS” OF IMPACT SUSTAINER

\$40 for 40 Years of Impact Sustainers will be recognized for their commitment of a recurring gift of \$40 per month. The giving society was established in 2024 in honor of Infirmery Foundation's 40th Anniversary.

SUSTAINING MEMBERS OF THE FOUNDATION

Infirmery Foundation appreciates all levels of support for our mission. To encourage all supporters to get involved, we have established Sustaining Memberships. Sustainers set up a recurring monthly gift to support the Foundation. Monthly giving can start at as little as \$10 per month. Sustaining Members whose annual giving exceeds \$1,000+ per year will be recognized at the appropriate Society Giving Level listed above.

No gift is too small to have an impact.

THE FUTURE

MOBILE INFIRMARY AMBASSADORS

Mobile Infirmary Ambassadors (MIA) are young professionals committed to ensuring Mobile and surrounding communities have access to the best healthcare in the region. The Ambassadors advocate for Mobile Infirmary by encouraging their peers and professional networks to get involved in our fundraising efforts. Foundation and hospital leadership keep them informed on initiatives that will impact healthcare in our community. We are excited to work with the next generation to build a healthy community.
